

MEDICAID DRIVER CERTIFICATION & REQUIREMENTS

In alignment with new protocols introduced by MAS, all drivers are required to undergo specific training to remain eligible for transporting medical customers. Completing this training is imperative for continued compensation.

Training Details:

1. The training program is available online and can be accessed as per your convenience.
2. Completing the online training is a mandatory requirement before beginning employment with Liberty Cab.

Instructions to Access the Training Program:

1. Visit [**CTAA.ORG/TRAINING**](http://CTAA.ORG/TRAINING).
2. Navigate to “PASS ONLINE: The Industry Standard”.
3. Select “PASS Basic Online”.
4. Click “ENROLL NOW” (Blue Access Code \$0) and enter the access code: **2151186**.
5. Provide your email address.
6. When prompted for a supervisor's email, enter: **SUPPORT@LIBERTYCAB.COM**.
7. Please note that there is a **\$28** fee associated with this program. Once completed, submit a printed copy of your certification to the office.

Important Security Update:

MAS providers have been granted real-time access to LibertyCab's onboard cameras. This access ensures that customers are present in the vehicle at the time of service. Any attempt to obstruct, tamper with, or interfere with these cameras is strictly prohibited. Failure to adhere to this protocol may result in non-payment for trips. Furthermore, if any tampering is detected, the vehicle owner reserves the right to reclaim the vehicle, restricting the driver from operating any vehicle in their fleet.

Your cooperation and adherence to these new protocols are essential. Thank you for your understanding and continued dedication to serving our customers safely and professionally.
